

# DJ800

## POLYESTER DOUBLE JACKETED ATTACK HOSE

The DJ800 is a municipal grade double jacketed hose with a lightweight EPDM rubber liner that meets all the requirements of NFPA 1961. Its lightweight and durable construction is designed for use as an attack handline hose and is manufactured to a service test pressure of 400 psi to handle all fireground challenges with ease. The tightly woven polyester fabric allows for easy, flat-folding storage. With the DJ800, firefighters can confidently tackle a variety of challenges, from structure fires to industrial accidents.

**TEMPERATURE RANGE:** -40F to 150F (-40C to 65C)

**COUPLINGS:** NPSH, Aluminum NH Threads, and Special Threads Available
